

**FOR IMMEDIATE RELEASE**

## **ValChoice CEO Speaks to Insurance Commissioners at Miami NAIC Meeting**

**BEDFORD, NH – Dec 12, 2016** – ValChoice®, the only analytics company for consumers of insurance, today announced that its CEO Dan Karr will be speaking at the National Association of Insurance Commissioners (NAIC) Winter 2016 Meeting taking place December 10 - 13, 2016 in Miami, FL. Speaking to the Committee on Market Regulation and Consumer Affairs, known as the "D Committee," Mr. Karr will highlight the critical need for transparency in the insurance industry and how more insight into pricing strategy, claims practices and service quality would benefit consumers, regulators, insurance companies and their agents. The [presentation is available with this link](#) under the slide share tab.

The National Association of Insurance Commissioners Winter conference is the largest meeting of US insurance regulators and insurance companies in the US. The NAIC is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators from the 50 states, the District of Columbia and five U.S. territories.

"The data available for consumers making decisions about buying insurance is highly inadequate," said Dan Karr, CEO of ValChoice. "If insurance commissioners, insurance companies and the agents begin to embrace transparency, it will benefit both consumers and the industry. Consumers will be able to make more informed decisions and the many good insurance companies will finally be able to establish a competitive advantage."

When: Monday, December 12, 2016 from 9 am – 10:30 am

Where: 4441 Collins Ave., Miami Beach, Florida, 33410, Fontainebleau Miami

Committee Meeting: D Committee, Market Regulation and Consumer Affairs

### **About ValChoice**

ValChoice® is the only company to provide consumers, agents and advisors with information on which home and auto insurance companies offer the best value: price, protection and service. The company's analytics platform collects and analyzes millions of financial and complaint data points and delivers the results in an easy-to-use service that Forbes Magazine describe as "Carfax for insurance." Using ValChoice, consumers are finally able to shop for insurance based on value rather than making decisions blindly based on price or advertising campaigns.
